and many co-partners within different sectors and geographical locations

RESULTS

53 local projects developed
More than 300 people were trained within the Innovation Academy
More than 100 international workshops and seminars were arranged
Innovation Circle Network established

Facts about IC network:

MISSION

The Innovation Circle Network should be an international association working for the benefit of smaller and medium sized places in Northern Europe, aiming at making such places sustainable and more attractive. The Network will strengthen transnational cooperation and

enhance awareness about cultural diversity, political and religious traditions. The Network will bring decision makers, specialists, business people, voluntary workers and youths from different countries together into development projects and events.

BOARD

Front line from the left:
Mr. Alf S. Johansen - Network secretary (NO)
